

Long-Term Surfactant

GENERAL INFORMATION

PBS150 represents new technology for long-term surfactants used for turfgrass. PBS150 uses a unique new surfactant molecular construction to address the source of performance loss.

The use of PBS150 according to the directions on this label:

- May reduce hydrophobic conditions on a sustainable basis
• May encourage a pattern of hydration and rehydration that improves the amount of available water in the soil profile to meet the metabolic demands of the plant
• May help in the uniform movement of water into and through the soil matrix thereby providing increased water availability

Increased water availability helps promote improvement in turfgrass quality, color, and uniformity, as well as improve heat and water stress tolerance.

LIMITED WARRANTY AND DISCLAIMERS

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

PRECAUTIONARY STATEMENTS

Not for use on Food Crops

NOTICE: Before using this product read the entire Precautionary Statements, Limited Warranty and Disclaimers, and Directions for Use. If the Disclaimer of Warranties is not acceptable, return the product unopened within thirty days of purchase to the place of purchase.

CAUTION

Keep out of reach of children.

DIRECTIONS FOR USE

Greens, Sports, and Lawns Turf Application

For optimum performance, tank mix PBS150 at 4.58 fl oz in 2.1 US gallons of water per 1076 ft² (130 ml in 8 L per 100 m²). For best results, we recommend once every 30 days.

PBS150 is to be irrigated into the soil following each application. PBS150 is to be used when drought is expected or where irrigation is the common practice.

IN CASE OF CONTACT

In Eyes - Immediately wash eyes with large amounts of water for at least 15 minutes, lifting the lower and upper lids. Seek medical attention IMMEDIATELY.

On Skin - Remove contaminated clothing and immediately wash contaminated area with large amounts of water for at least 15 minutes. Seek medical attention.

If Swallowed - If person is conscious, immediately give large quantities of water. Do not induce vomiting. Do not induce vomiting or give fluids by mouth to an unconscious person. Seek medical attention immediately.

If Inhaled - Move person to fresh air and check to ensure adequate respiration. Seek medical attention immediately.

NOTE: If a pesticide is mixed with the PBS150 solution in the tank, follow the First Aid Directions on the label of the Pesticide.

Applicators and other handlers should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove protective clothing and equipment after handling. Wash the outside of gloves before removing. Wash thoroughly and change into clean clothing.

AQUA-AID GUARANTEE

PBS150 comes with a 100% money back guarantee. If you are not satisfied with PBS150 for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
