Black Onyx™ Liquid Lake and Pond Colorant is a high concentrate colorant that helps create the unique natural look of black water lakes and ponds favored in golf course and resort locations. The look of ornamental water features, water gardens, and other contained bodies of water will also be enhanced by the use of **Black Onyx Liquid Lake and Pond Colorant**.

Black Onyx will transform pale, off-colored water to a decorative, mirror-like black color. Water treated with **Black Onyx** may be used for irrigation. Not approved for use in potable water. There are not restrictions to fishing, swimming, or recreational water use during and following application of this product. Fish, waterfowl, and animals are not harmed or discolored by this product.

Black Onyx may be used in conjunction with BASF's **Lake Pak® WSP®** for an effective nutrient management and water clarity improvement program.

Directions For Use

This product should not be applied to streams, rivers, outflows, or water not completely controlled by the user.

Application Rates

Large water bodies: Apply 32-64 fl oz per surface-acre of water four (4) feet deep.

Other water bodies: Apply 2 fl oz per 20,000 gallons of water.

Black Onyx should be applied near the shoreline at various locations around the lake or pond to achieve the best coverage. The amount of colorant used may be varied to achieve the desired color of the water.

Reapplications of **Black Onyx** will help maintain the desired water color throughout the season.

Storage and Disposal

Storage: Keep away from heat. Protect from direct sunlight.

Waste Disposal of Substance: Must be disposed of or incinerated in accordance with local regulations.

Container Disposal: Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

Accidental Release Measures: Segregate from foods and animal feeds. Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater. For small amounts: Contain with dust binding material and dispose of. For large amounts: Sweep/shovel up. Dispose of absorbed material in accordance with regulations. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations.
