## Category

NOP: Soap – ammonium

## Issue date

27-Apr-2012

## Product number

bss-2930

## Class

Crop Pest, Weed, and Disease Control

## Expiration date

01-Dec-2018

## Restrictions

Use must comply with requirements of §205.206(e) which requires the use of preventative, mechanical, physical, and other pest, weed, and disease control management practices. When used as animal repellent, may only be used as a large animal repellent and substance must not contact soil or edible portion of crop. May be used as an algicide/demasser, herbicide or insecticide according to §205.601(a)(7), (b)(1) and (e)(8), respectively. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Executive Director

Product review is conducted according to the policies in the current *OMRI Policy Manual*® and based on the standards in the current *OMRI Standards Manual*®. To verify the current status of this or any OMRI Listed product, view the most current version of the *OMRI Products List*® at [OMRI.org](http://OMRI.org). OMRI listing is not equivalent to organic certification and is not a product endorsement. It cannot be construed as such. Final decisions on the acceptability of a product for use in a certified organic system are the responsibility of a USDA accredited certification agent. It is the operator's responsibility to properly use the product, including following any restrictions.
